

# Chromebook Leave at School Request Form

---

## Clearview Regional School District

We understand that there may be circumstances where leaving the student's district assigned Chromebook at school is the best option for the family. Therefore, we do allow for this choice. However, we encourage all of our middle school students to take advantage of the 24/7 access to technology and have made the take-home model option available to all families. Your child's teachers are planning and assigning homework knowing that their students have uncontested access to a device that evening or on the weekend/vacation. If a family opts to have their child leave the Chromebook at school, we hope a home device will be made available so the student will not be hindered in completing their school work.

In addition, the Chromebook liability will not be waived for families who opt to leave the Chromebook at school. Students are still responsible for the Chromebook since they will be transporting it within the school building during the day. The liability and insurance plan options will be exactly the same for leave at school Chromebooks as take home Chromebooks

The district will provide a secure and centralized location where there will be a charging station for the Chromebook. At the beginning of the school day, your child will go to that location and pick up their charged Chromebook for use during the school day. At the end of the final school period for that day, your child will be allowed to take their Chromebook back to the secure location and plug it into the charging station for the evening. This daily procedure repeats throughout the school year. In addition, adults will be assigned to this secure location in the morning and afternoon, on a daily basis, to assist with any issues that may arise.

At any time during the school year, you may change your mind and opt in to the take home Chromebook model. To do this, please notify the school's main office through a written request (e-mail is preferred).

To complete the Chromebook Leave at School request, please complete the information below and submit it to personnel at the Chromebook distribution session (at the beginning of the school year) or to the main office (during the school year).

	<b>Leave the Device at School</b>	I choose to have my child leave their district Chromebook at school at the end of the day. We have our own technology device at home that our child may use for their school assignments. We understand that we are liable for damage of the Chromebook while it is used in school.
