

Chromebook Damage Protection Plan Options

Clearview Regional School District

In accordance with Policy 5513: Care of School Property, students are responsible for the proper care of school property and the school supplies and equipment entrusted to his/her use. Students and parents will be responsible for district-owned technology property that is issued to them, just as they are for other district-owned items such as text books, calculators, athletic equipment, or library books. The Clearview Regional School District recognizes that there is a need to protect the investment by both the district and the student/parent. If the device is damaged, the district will repair or replace it, but students/parents will be responsible for the cost of those repairs or replaced devices.

However, the liability on families/students can be reduced significantly by taking part in the district's Chromebook Protection Plan program. For \$20 (non-refundable) for the current **2017/2018** school year, per device, the Chromebook Protection Plan program will repair or replace the device the first time damage occurs. If the Chromebook is repaired, the family will be offered to renew the Protection Plan for an additional \$20. This Protection Plan program covers accidental damage. It does NOT cover loss, theft, damage by flood/fire/intentional destruction. The district strongly recommends purchasing our Chromebook protection plan.

Choosing to enroll in the district's Chromebook Protection Plan is optional. You may elect to pay for damages out of pocket or cover the device by your own personal insurance. Parents/guardians who select no plan will be financially responsible for loss, theft, or all damages not covered by the manufacturer's warranty. Typical repair and replacement costs are listed below.

Replace entire Chromebook \$300
Replace screen \$90
Replace keyboard/touchpad \$50
Replace cracked/damaged shell/casing \$100

Replace power cable/charger \$30
Replace transport case \$20
Liquid spill \$200

Parents that wish to carry their own personal insurance to protect the Chromebook should consult with their insurance agent for details about your personal coverage of the Chromebook and accessories. Parents will need to show proof of insurance at the time of laptop pick-up before the student(s) is/are allowed to check out the device.
