

Health Services

We will evaluate your child's illness and determine if he/she is able to return to class, needs to go home, or requires a medical referral. **Your child must report to the nurse.** If a student uses his/her cell phone to call or text a parent for pick up, **it will not be medically excused and disciplinary action may be taken.**

Routine health screenings may include height, weight, blood pressure, hearing, vision, and scoliosis screenings. As per state guidelines, you will receive notification of any results that deviate from the recommended standards. Although these screenings are important assessment tools, they are not meant to take the place of regular medical examinations from your child's health care provider.
