## Annual AHERA Notice For School Year 2020-2021

Dear Parent, Guardian, or Staff Member:

In October 1986, the U.S. Congress enacted the Asbestos Hazard Emergency Response Act (AHERA). Under this law, comprehensive regulations were developed to address the issue of asbestos containing building materials in our nation's schools. The regulations require that all Kindergarten through 12th grade educational systems must provide for the inspection of their school facilities for asbestos containing materials. When asbestos containing materials are found the school must develop a comprehensive asbestos management program to ensure that the school facility is free of any potential health hazards that may be related to the presence of asbestos building materials.

The Clearview Regional School District has contracted Epic Environmental Services, LLC to provide AHERA-related Asbestos Management Program administration. In December 2019 EPIC Environmental completed a three (3) year surveillance inspection of the asbestos-containing material in all district facilities. The AHERA regulation requires that periodic inspection be conducted every six months. This inspection was completed June 2020.

All Asbestos Management Program documents are available for review during normal business hours at each school administrative office and in the Facilities Office, 606 Breakneck Road, Mullica Hill, NJ 08062

For additional information regarding the above you may contact:

  
Steve Nicoletta

**ANNUAL INTEGRATED PEST MANAGEMENT NOTICE**

**FOR SCHOOL YEAR 2020-2021**

Dear Parent, Guardian or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. Clearview Regional School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the schools' IPM Policy available in each school and the Facilities Office at any time.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for Clearview Regional School District is:

Name of IPM Coordinator: Steve Nicolella

Business Phone Number: 856-223-2780

Business Address: 420 Cedar Road, Mullica Hill, NJ 08062

The IPM Coordinator maintains the pesticide product label and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. The label and the MSDS are available for review by a parent, guardian, staff member or student attending the school. Also, the IPM Coordinator is available to parents, guardians and staff members for information and to discuss comments about IPM activities and pesticide use at the school.

As part of a school pest managements plan Clearview Regional High School District may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that, where possible, persons who are potentially sensitive, such as pregnant women, infants and children should avoid unnecessary pesticide exposure.
